STUDENTS ENTER UPON CRUCIAL PERIOD--M'VEY

President Sounds Keynote of Session in Ringing Speech to Crowded Chapel

New Dean of Women Is Introduced and Receives Cordial Welcome

"We are entering upon a year fraught with the greatest importance, since it is the first year since the declaration of peace," declared President McVey at the opening exercises of the University Wednesday morning in chapel.

Practically every seat was occupied and much enthusiasm was shown on the part of members of the student body and faculty. This was especially evident when, at the close of his address, Dr. McVey introduced Miss Josephine Simrall and the students responded with cheers and clapping of hands. One of the features of the program was a violin solo, a selection from Il Trovatore, delightfully rendered by Professor Carl Lampert, accompanied by Mrs. Lampert.

Dr. McVey's talk was on the subject of University problems in their relation to national life. He stated that the opening of the college year is always of great moment to the student because the inspiration and hope which impels him at that time must carry him through if he is to have a successful collegiate career. According to the speaker, the University requires only two things of its students that they be first, gentlemen and ladies, and second, conscientious workers.

Without denying the importance of outside interests, he stressed the fact that the real purpose of the University is to train the mind to do the work which is required of the college graduate. This aim can be reached only when the student applies himself to his college work.

"It is the responsibility of colleges to enable the graduate to apply a trained mind with a high conscience to the problems with which he is confronted in life," said Dr. McVey. "Here opportunities are offered, to come in touch with the highest ideals in the world, and to make friendships such as may never be made again."

The speaker believes that the solving of University problems is merely a matter of co-operation, that students must work together to establish fine traditions of honor. Democracy is especially essential. It is the president's desire that a system of student government be established as soon as possible. He praised the women of the dormitories who last year began student government at Patterson Hall and urged that men and women extend the work to the campus.

Among the improvements which

Kernel Staff to Be Chosen by Competition

Assignments Given Out to Would-Be Members upon Application.

The Kernel begins its work for the year with an eight page edition this week. The opening of the University found several members of the old staff back on the job and numerous promising freshmen and "old faithfuls" who found their way back to the Kernel office were pressed into service to make this issue a good forerunner of the year's work.

Owing to the fact that the staff is still incomplete, it is the plan of the editors to devote the first few weeks in filling those places which are still vacant. An opportunity will be given to any newcomers at the University or any others whose journalistic talent has not yet come under the notice of the department, to demonstrate their ability to hold a place on the college paper. Selections for the staff will be made of those who submit the most promising work. Assignments will be given to those who apply at the Kernel office, in the basement of the Administration Building Saturday morning.

Besides the positions of editor-in-chief, managing editor and assistant managing editor, which are held by Gavin Norment, Miss Louise Will and Rob Raible, respectively, only two appointments have been made. Donald Dinning will be sporting editor and Mr. Herndon Evans, Squirrel Food editor.

Dinning's admirable work on the staff last year led to his early appointment this year. He will have complete charge of the sporting page this year, with the help of students who will be chosen with the rest of the staff.

Mr. Evans returns to the University after an absence of two years. He will be a junior in the Department of Journalism.

Two other members of last year's staff, Adele Slade and Margaret McClure, who were contributors to this week's issue, will be on the staff, but their exact places have not yet been determined.

DISPENSARY OPENS.

The University Dispensary will be open Thursday in the New Dormitory. Miss Lockhart will be in attendance each day. Dr. Wilson will be in attendance Tuesday and Friday, 3:30 to 4:30 p. m.

DR. TIGERT IN CHAPEL.

Dr. John J. Tigert, who returns to the University after a year spent in war work overseas, was the speaker in chapel exercises Tuesday morning. His subject was, "The Value of Education as Shown by the World War." have been effected during the summer. Dr. McVey discussed the building of the Little Theater, the establishing of an infirmary and the opening of courses in Red Cross work.

IMPROVEMENTS MADE ON UNIVERSITY CAMPUS

Electric Bell System Takes Place of Whistle; New Building Erected on Experiment Farm

Students returning to the University find that the summer has brought about many changes on the campus. The construction of better roads, the erection of new buildings and the remodeling of old buildings are included in the improvements which were effected during vacation.

The deep gullies and holes in the semi-circle drive on the University campus, the old cupola of the Main Building decorated with numerals of classes that have long since passed out into the world are all things of the past. The main drive from the entrance on South Limestone past the Administration and Old Chemistry Building back to Limestone, north of the Agriculture Building, has been made over with Kentucky rock asphalt and now offers the biggest of joys or the smallest of bicycles a smooth passage.

The exterior of many buildings has been painted. The whistle, blowing deafening hours for beginning classes and joyful hours for release, has also become extinct, and an electric bell system with two or more bells in each building has been adopted. The Old Dorm or White Hall which is nearing completion is to be used for many purposes. The first floor will be devoted to the use of the Botany Department; the second floor to the Little Theatre; the Economics Department, the Girls' Rest Room and the office of the Dean of Women. The Art and Design and the Music Departments will be on the third floor and the Band will occupy the fourth.

The former Mess Hall will be turned into a gymnasium for women and will be remodelled within a short time. A new building has been erected on the Experiment Farm and will be completed within four weeks. It is 67 by 42 feet and will contain a judging arena and two class rooms. Classes in Animal Husbandry Department will begin within the next ten days and will train an International Stock Judging Team. There are also several prospective improvements which promise to keep hammer and saw busy until early Spring.

STOCK IN WILDCAT TEAM RISES AS STARS RETURN.

Stock in the Wildcat team rises steadily with the return of former stars to the gridiron. "Big Jim" Server, "Shorty" Heick and Paul Hite, all former first team men, who have been on "Service" teams since leaving college, are expected back in school and on Stoll Field during the week.

Professor Frankel to Resign Chair at Univ.

To Enter Commercial World in Lexington.

Prof. L. K. Frankel, one of the outstanding figures in the College of Engineering for a period of about eighteen years has resigned. Professor Frankel will take up work in architectural and engineering practice in and about Lexington.

He has been a very important factor in the training of the student engineers and by his departure the University is losing a valuable man.

Professor Frankel came to the University of Kentucky in 1897 and was graduated in the class of 1900. With the exception of two years that he was associated with the B. F. Stuttevant Company, of Boston, he has been teaching in the College of Engineering of this University.

MEMORIAL CAMPAIGN TO GO OVER THE TOP SOON

Counties Entering Work Late Expected to Swell Amounts to Required Sum

Funds to erect a Kentucky Memorial on the campus of the University of Kentucky as a tribute to those who gave their lives in the war with Germany have been raised to the extent of about half the amount needed, not counting the result of the efforts of the alumni of the University of Kentucky and former Kentuckians in other States, according to the information received by the campaign manager, Prof. W. E. Freeman, of the University.

Many of the counties neglected to start their campaign last Monday and many others will hold their drive this week. One county is definitely known to have gone over the top. General E. H. Woods, of Allen county, wired Professor Freeman that Allen county had pledged \$1,400 and would give more. Allen's quota was \$1,000. Louisville raised a little over half of her \$60,000 quota.

Kentucky mine operators have manifested an interest in the movement and Professor Freeman said that W. A. Duncan, of Greenville, would be in charge of the drive among the operators of Western Kentucky and that K. U. Maguire, of Louisville, would take charge of the Eastern Kentucky district for this work.

In New York, Howard Ingels, an alumnus of the University, is active among his fellow alumni and former Kentuckians of wealth, whether alumni or not, and W. L. Burnaugh is chairman of a similar movement in Chicago.

The campaign will be continued next week in counties where it has not been completed, with the prospect of having to raise about one-half the total—\$300,000—if the drive is a success.

ENROLLMENT EXCEEDS LAST YEAR'S RECORD

"Big Brother" Movement Started by 'Y' Members Brings Happy Results

The total enrollment of students in the University at the time the Kernel went to press was 962, a number which will in all probability go beyond the 1,000 mark. On the first two days of registration, crowds of students thronged about the registration desks, until even ever cheerful pros threatened to form a union and strike for shorter hours.

New students were met by representatives of the Y. M. C. A. and Y. W. C. A. and directed to the offices of the registrar and business agent. An information bureau to aid them in the search for rooms and for employment outside of school hours was also in charge of the "Y." To accommodate the large number enrolling the Gymnasium was used for classification and representatives of all departments of all colleges were kept busy arranging schedules.

Seven disabled soldiers enrolled at the University Monday under the provisions of the Federal Board of Vocational, which supervises the education of the men. Between thirty and forty men disabled in the service will probably be trained at the University at government expense this year. T. J. North, special agent of the board for District 7, said that approximately 700 men in the district, which comprises Kentucky, Indiana and Ohio, had been placed in schools, and that many more would come to the University.

"The soldiers are allowed to choose the course of training they wish to pursue, and are then sent to the institutions where they will have the best instruction in those courses," Mr. North said. "The University of Kentucky has the best College of Mines in the district, and probably the best in the country, excepting that of Colorado. Naturally men who wish to study such work are sent to Lexington.

Numbers of men who want work in

(Continued on Page Eight)

STUDENTS TO REPORT FOR CLASS TEAMS

Class spirit will be exhibited in athletic contests within the next few weeks. Four football teams representing the Freshman, Sophomore, Junior and Senior classes will be organized next week, and will be coached by competent members of the faculty. Classmen who desire places on the four class teams should report to "Daddy" Boles for further instructions.

A field for the class teams to practice on is being prepared and work will begin immediately after the regular teams and subs are chosen. The games will be played in a series and the winner will be decided by the process of elimination.

General Directory of
The University of Ky.

For the information of new students of the University, who are supposed not to be acquainted with locations of class rooms, libraries and names of various buildings on the grounds, the Kernel takes pleasure in publishing the following general directory in the hope that it will eliminate much of the confusion hitherto experienced by students who are entering classes for the first time.

Situation of Buildings.

Educational Building—The Educational Building, the first building on entering the North gate, is occupied by the Departments of Education and Philosophy. On the second and third floors of this building is the Model School.

Gymnasium Building—To the south of the Educational Building on the main road is the Gymnasium Building or Alumni Hall. Here the Armory, Men's Gymnasium, the offices of the Commandant, Men's Physical Director, the Athletic Coach, the Y. M. C. A. Secretary, the V. M. U. A. Reading and Recreation Rooms may be found.

Administration Building—Midway between the North and South gates on the main road is the Administration Building. Here, the offices of Administration, Departments of English, Journalism, History, Latin, German and Romance Languages, College Chapel, Cafeteria, Postoffice and Supply Department are situated.

White Hall—White Hall, formerly the Old Dormitory, is back from the road between the Administration and Gymnasium Buildings. Here is the new home of the Departments of Botany, Art and Design, Economics, "Little Theatre," Department of Music and Band Room.

Women's Gymnasium—Behind White Hall is the Women's Gymnasium.

Old Chemistry Building—The Old Chemistry Building lies directly south of the Administration Building. It is given over to advanced work in chemistry.

New "Dorm"—Behind the Old Chemistry Building is the "New Dorm." Here are the Departments of Bacteriology, Psychology, and the Girls' Rest Room.

Natural Science—To the southeast of the Administration Building is the Science Hall. Here are the Departments of Zoology, Geology and Anatomy and Physiology. The Law College is situated on the third floor of this building.

Mechanical Hall—To the southeast of Science Hall is Mechanical Hall. In this building is the office of the Dean of the Engineering College, the Departments of Mechanical Engineering, Electrical Engineering and Drawing. The Annex, back of Mechanical Hall, is given over to the Mechanical, Electrical, Woodshop and Automobile Laboratories.

Mining Engineering Building—To the east of Science Hall is the Mining Engineering Building. Here are the offices of the State Inspector of Mines, Assistant State Inspector and the Department of Mines and Metallurgy.

Civil Engineering and Physics Building—Southeast of Mechanical Hall is the Civil Engineering and Physics Building. Here, the Departments of Civil Engineering, Physics and the Department of Mathematics and Astronomy are housed.

New Chemistry Building—South of the Chemistry Building is the New Chemistry Building, where preliminary work is done.

Observatory—In front of the Chemistry Building is the Astronomical Observatory.

Agricultural Hall—In the southwest corner of the campus is Agricultural Hall, home of the Departments of Horticulture, Animal Husbandry, Farm Management and Home Economics.

Experimental Station is situated south of the University between Washington and Virginia Avenues.

The Experimental Station Farm is also south of the University and about a mile out on the Nicholasville pike.

The Library—The general University Library Building is directly east of the Administration Building.

Maxwell and Patterson Halls—Patterson and Maxwell Halls, the girls' dormitories, are one-eighth of a mile north of the campus. Patterson Hall is on South Limestone and Maxwell Hall faces Harrison avenue and directly adjoins Patterson Hall.

Residence of Doctor Patterson—East of the Library Building is the Residence of President Emeritus Patterson.

President's Residence—East of the Civil Building, facing Rose street, is the Residence of President McVey.

Administrative Offices.

(First Floor Administration Building.)

President McVey, 106.

Mr. Peak, Business Agent, 110.

Mr. Gillis, Registrar, 104.

Professor Melcher, Dean of Men, between President and Dean of Arts and Science.

Miss Smrall, Dean of Women; Staff Room of Library.

Doctor Pryor, University Examining Physician, 205-207 Science Hall.

Doctor Wilson, University Dispensary, New "Dorm."

Professor Rhoads, High School Inspector, 101.

Mr. Owens, Y. M. C. A. Secretary, 204

Gymnasium Building.

Mr. Whipple, Superintendent of Grounds, 108.

College of Arts and Science.

Dean Boyd, R. 107 Administration Building, (First Floor.)

Department of Anatomy and Physiology, Doctor Pryor, Class Room, 207 Science Hall; Laboratory, 205 Science Hall. Office between Laboratory and Class Room.

Department of Ancient Languages and Literature, Professor Jones, (Third Floor Administration Building, north wing.) Class Room, 303 Administration Building.

Department of Art and Design, Professors Beck and Bates, (Third Floor White Hall), Class Rooms, Professor Beck, 301, Professor Bates, 303.

Department of Bacteriology, Professor Scheraga, (First Floor New "Dorm.") Class Room 106.

Department of Botany, Doctor Shull, Professor MacFarland, (First Floor, White Hall.) Office 101-A, General Laboratory 102, Recitation Room 101, Plant Physiology 103, Lecture Room 203, (Little Theatre) Chemistry.

New Chemistry Building, Professors Maxson and Mitchell, Lecture Rooms 201, 203, 205; Laboratory 101.

Old Chemistry Building, Doctors Tuttle, Bedford and Bancroft, Offices, Doctor Tuttle 108, Bedford 101, Bancroft 107; Lecture Rooms 204, 104; Laboratories 205, 107 105, 203.

Economics—Professor Welst, Professor Cleland, (Second Floor, White Hall.) Class Rooms 205, 206.

Red Cross, Professor Best, 1st and 4th Hours Tues. Thurs. Sat., Room 103.

Education, Professors Noe, Baker, James and May, (Education Building and New Dorm.) Office, 102 Education Building; Class Rooms, Professor Noe 106, Professor Baker 105 (Education Building), Professors James and May 203 (New Dorm.), Smith-Hughes Instructor (Office) 101.

Department of English, Professors Farquhar, Bradley, Jewell, Male, Whitting and Smrall, (Administration Building, Old Dorm.) Office, 104 Science Hall, Class Rooms, Professor Farquhar 302 South Wing Administration Building (Third Floor), Professor Bradley, 301 South Wing Administration Building (Third Floor), Miss Jewell, 205 North Wing Administration Building (Second Floor), Mr. Whitting, 204 North Wing Administration Building (Second Floor), Mr. Mable, 203 Second Floor Old Dorm, Miss King, Library.

Department of Geology, Professor Miller (Second Floor, Science Hall), Office 201, Lecture Room 203.

Department of German, Professor Melcher, Office, between President and Dean of Arts and Science First Floor.

Administration Building, Class Room 304 Third Floor North Wing Administration Building.

Department of History—Doctor Tutthill, Professor Butt (Second Floor Administration Building, South Wing, Class Room, Doctor Tutthill 203, Professor Butt 202.

Department of Journalism, Professor Grehan, Miss McLaughlin, (Basement Administration Building.) Office 2, Class Rooms, Professor Grehan 3, Miss McLaughlin 2.

Department of Mathematics and Astronomy, Dean Boyd, Professors Smith, Davis, Downing and Rees, (Third Floor Civil and Physics Building.) Class Rooms, Professor Smith 308, Professor Downing 303, Professor Davis 310, Professor Rees 305.

Department of Military Science, Major Tucker (Commandant), Office of Commandant, 107 (First Floor, Gymnasium Building.) Armory, 101 (First Floor, Gymnasium Building.) Class Room, Armory.

Department of Music, Professor Lampert, Class Rooms, 306 and 401 Old Dorm.

Department of Philosophy, Doctor Granville Terrell, Class Room, 103 (First Floor Educational Building).

Department of Physical Education Professors Boles and Gill, (Gymnasium Building, First Floor.) Office, First Floor, Gymnasium Building.) Gymnasium, 104, 106.

Women, Mrs. Stout, Miss Blanding (Women's Gymnasium Building).

Department of Physics, Professors Webb, Angel, Pence, (Second Floor, Civil and Physics Building.) Office 101 (First Floor.) Class Rooms, 200, 103, 105, Laboratory 202.

Department of Psychology, Doctors Tigert and Cornell, (Second and Third Floors, New Dorm.) Class Rooms, Doctor Tigert 302, Doctor Cornell 206.

Department of Romance Language, Professor Zembrod, Miss Barrett, Class Rooms, Professor Zembrod, 204 Administration Building, (Second Floor, South Wing); Miss Barrett, 204, 301, 302, 205, Administration Building.

Department of Zoology, Doctor Funkhouser, Mr. McCarty, (First Floor Science Hall.) Office 102, Lecture Room 105, Laboratories, Entomology 108, Herpetology 103, Histology and Embryology 107, Osteology 101.

Note—Due to the delay in finishing "White Hall" caused by the present shortage of material the following departments will for the present be found:

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

TE SALUTAMUS.

"Hello, old man, glad to see you!"

This expression, which has been heard on all sides for the last week, epitomizes the general good feeling of the student body in the opening of what promises to be the most notable year that the University of Kentucky has yet known. Old students of ante-bellum days grasp the hands of men whose names they have forgotten and bluff that ever welcome expression, "Hello, old man."

It is with this feeling that the Kentucky Kernel greets its friends of former years; it is with the same spirit that the new student is welcomed; perhaps a little more warmly is the newcomer welcomed to our midst.

This should be the University's greatest year. Never was there a more representative body of students gathered together in "Old Kentucky" than the present enrollment. Every county in the State, from the Big Sandy to Mills' Point, has sent the best of its young men and women to this institution for their higher education.

Lexington is greeting the students this year with even a heartier welcome and more good Kentucky comradeship than ever before. The citizens realize the extensive benefits to be derived from college community and are extending an added welcome to the students of this year and the years to come by fostering the plans for the new State Memorial Building. Lexington proposes a bond issue of \$755,000 to raise its quota and the Fayette Fiscal Court has already appropriated \$25,000 to complete the combined city and county quota of \$100,000. Incomplete reports from the State generally indicate that at least \$200,000 of the sum is already assured.

The University plant itself has never been so well equipped for the great work to be done and improvements made in physical aspects of the institution alone in the last eighteen months have converted the University from a small inadequately appointed college, so to speak, to a physical status more nearly approaching the dignity of its great office in the Commonwealth.

The faculty this year has met the student body with open arms and the finest sort of good comradeship that bespeaks undoubtedly happy results.

The Kernel sought to establish a precedent this session by publishing its first issue the opening week of school but mechanical trouble in the publishing house delayed the issue several days. This paper hopes to be of real assistance both to student body and administration in promoting every activity that will redound to the well-being of the University and realization of the broader vision that now stretches so alluringly before it. The Kernel is the students' paper, edited by students and paid for out of funds supplied by students. It will be on the counters in the University postoffice, basement floor, Administration Building, immediately after it is printed each Thursday and every student is urged to call and procure his copy promptly.

The Kernel invites criticism and suggestion from faculty and students and hopes to become, throughout the session just opening, the boon companion and good comrade of both.

BENEVOLENT ELIMINATION.

The European War has been settled, the National League pennant has been cinched, the Bolsheviks defeated, the peace treaty signed, the League of Nations practically decided upon, but the greatest issue of all—how to prevent the painless extraction of the Freshman's hirsute adornment—continues in a state of nervous uncertainty.

Despite the warning of an ever tolerant faculty and the promises of condign punishment of offenders unlucky enough to fall into their grasp, some youngsters who proudly boast of things that will be accomplished in 1923 have appeared on the campus with their heads resembling a cubist's dream. The work along this line this year seems far ahead of that of the olden days and in many instances the labor smacks strangely of professionalism.

Hair-cutting is an ancient custom of the University and belongs with the never-running water fountain and the antiquated gym. In the old days when moral suasion was never used to accomplish the work no first year man escaped; he always remarked after the job was completed that he didn't care much anyway. The city barbers with their incidentally fattened tills never registered a complaint, so far as had been learned up to the hour of going to press.

Many styles are used by the wielders of the clippers. Scissoristically speaking their work has been highly successful. Beginning at the northeast end of the head and proceeding in a southwestern direction no one can tell what the result will be when an upper classman grabs the shears and starts after his victim.

The writer, whose sins of commission in this particular field of progressive elimination are perhaps too many and too recent for him in this instance to suggest a remedy without subjecting himself to suspicion of hypocrisy,

nevertheless devoutly believes the day will yet dawn when young Kentuckians entrusted with the impressive duty of sustaining University tradition will see their way clear to desist from a practice that has long been a source of embarrassment to the faculty and perhaps by no means an emphatic mark of credit to the malefactors.

Meantime the shorn locks of the unsuspecting Freshman still tremble in the autumn wind and the culprit escapes the wrath of the faculty through the loyal, if not commendable refusal of the victims to "peach" on their tormentors.

The Kentucky Kernel says: "The young women this year are unusually pretty, suh, and the young men—well, not much homelier than usual, I think, suh."

—(o)—

They Do Change the Looks.

A little girl that I once knew,
So charming and so sweet,
Fell in love with a uniform—
And married him, "toot sweet."
When the war was ended
In "clts" he came back home;
And now she sits and prays,
That more wars quickly come.

—(o)—

Now come the days of campus ticks, made by ponds, rushes, class numerals and hair-cuts. Watch your step, Freshie!

—(o)—

The well known early bird was called to mind on the opening day of school when a student, money in hand and watch chain dangling made his exit from Harry Skuller's three-ball shop.

—(o)—

The Old Soldier rises to remark that even without the strenuous course outlined by the Saturday Afternoon Tea Club the young Freshman will find sufficient drill to occupy him during the long afternoons.

—(o)—

The Innocent Bystander remarked after attending a dance: "The modern young ladies wear most becoming

skirts; strange they never feel the need of walsts; besides they'd add so much to their appearance."

—(o)—

Matter of Interpretation.

"It is a matter of civic duty," Dr. McVey said. "In a way Lexington is host for the hundreds of students who come here to attend the University, and we ought to do everything we can to make their stay here as profitable and convenient as possible."—Lexington Herald.

From the prices assessed against the meagre bankrolls of students one would assume that the selection of the word "profitable" was about the happiest thing President McVey has done so far in accurate terminology.

—(o)—

"My idea of nerve," remarked the Knight of the Lexington Drug as he thoughtfully slipped a dope, "is the guy that goes into a shoe shine parlor and borrows a brush to remove the accumulated real estate from his boots."

—(o)—

Ike Skaggs removed his tobacco and remarked apropos the League of Nations: "This here League of Nations can't last for long because none of the countries now in it knows the first principles of the game. Cuba has about the best professional team out and, would you believe it, they haven't even been invited?"

PUBLICATIONS.

Kentucky Kernel.

The University of Kentucky is well represented in the field of publication. The Kentucky Kernel, official student newspaper of the University, is issued every Thursday during the school year. Each student pays for his subscription to the Kernel when he pays his "general activities" fee at the beginning of each semester and should be sure to call for his copy of the paper each week at the University Postoffice. The Kernel contains all of the college news of Kentucky as well as a digest of matters of interest concerning other universities and colleges. The University is planning this year to place the Kernel in

the accredited high schools of the State to be put in the hands of all Seniors.

The staff is selected by the editor-in-chief, who together with the business manager is selected each year by the Kernel Board. The staff so far appointed to serve this year is: Gavin Norment, editor-in-chief; Louise Will, managing editor; Bob Raible, assistant managing editor; and J. P. Barnes, business manager. At least one year's work in Journalism is virtually a pre-requisite for eligibility for a place on the staff.

The Kentuckian.

The Kentuckian is the year book of the University published about the last of May by the Senior Class. The editor-in-chief and business manager are elected by their class during the Junior year. The remainder of the staff is selected by the editor-in-chief from the Senior class. For the 1923 Kentuckian the following incomplete staff has been selected to serve: Jesse Tapp, editor-in-chief; J. Ed Parker, business manager; Ruth Thomas, associate editor; Margaret McClure, assistant editor; Kathleen Brand, second assistant editor; Todd Green, snapshot editor; Henry Grehan, athletic editor; William Wallace, art editor; Everett Eisey, assistant art editor; H. H. Bennett, assistant business manager.

Law Journal.

The Law Journal is issued monthly by the students of the College of Law. It is the official organ of the State Bar Association. The editor-in-chief and business manager are members of the law faculty, the rest of the staff is selected from the members of the second and third year classes of the Law College by annual competitive contest. To earn a place on the staff the student must submit several comments on "recent cases" to the editor-in-chief. These comments are graded by the law faculty and the "comment grade" is combined with the student's academic grade for his first year's work to obtain his "average" grade. The five or six students making the highest "average" grades are chosen for the staff.

Rural Kentuckian.

The Rural Kentuckian is published monthly by the Agricultural Society of the University and is devoted to the agricultural

interests of the State. The editor-in-chief and business manager are elected by the society and the remainder of the staff is chosen by the editor from members of the society, to which every agricultural student should belong.

In addition to these, the "Weekly Bulletin" is issued by the Department of Journalism for the purpose of giving to the faculty, students and friends of the University notice of all entertainments, lectures and meetings on the campus and in the city which are of general interest to the students and the University community; the Experiment Station bulletin publications report the research in the College of Agriculture; and the High School Quarterly, published four times a year under the auspices of the Department of Education, is devoted to the interests of secondary education in Kentucky.

FRATERNITY DIRECTORY.

Theta Chapter of Kappa Alpha was established at University of Kentucky 1893. Pan-Hellenic representative, John Davis.

Sigma Chi.

Lambda Lambda Chapter of Sigma Chi was established at the University of Kentucky, 1893. Pan-Hellenic representative, J. T. Guthrie.

Sigma Alpha Epsilon.

Kentucky Epsilon Chapter of Sigma Alpha Epsilon was established at the University of Kentucky, 1900. Pan-Hellenic representative, J. A. Dishman.

Kappa Sigma.

Beta Mu Chapter of Kappa Sigma was established at the University of Kentucky, 1901. Pan-Hellenic representative, R. A. Glenn.

Phi Delta Theta.

Kentucky Epsilon Chapter of Phi Delta Theta was established at the University of Kentucky, 1911. Pan-Hellenic representative, R. S. Parks.

Pi Kappa Alpha.

Omega Chapter of Pi Kappa Alpha was established at the University of Kentucky, 1901. Pan-Hellenic representative, Earl Williams.

Sigma Nu.

Gamma Iota Chapter of Sigma Nu was established at the University of Kentucky, 1902. Pan-Hellenic representative, Eger Murphree.

Alpha Tau Omega.

Mu Iota Chapter of Alpha Tau Omega was established at the University of Kentucky, 1909. Pan-Hellenic representative, E. S. Daney.

Delta Chi.

Kentucky Chapter of Delta Chi was established at the University of Kentucky, 1913.

Sigma Alpha Mu.

Kentucky Chapter of Sigma Alpha Mu, established at the University of Kentucky 1915.

Alpha Sigma Phi.

Sigma Chapter of Alpha Sigma Phi established at the University of Kentucky, 1917.

Alpha Gamma Delta.

Epsilon Chapter of Alpha Gamma Delta was established at the University of Kentucky, 1908. Pan-Hellenic representatives, Mary Helen Whitworth, Elizabeth Card.

Alpha Xi Delta.

Xi Chapter of Alpha Xi Delta was established at the University of Kentucky 1908. Pan-Hellenic representatives, Virginia Croft, Mary Archer Bell.

Kappa Kappa Gamma.

Beta Chi Chapter of Kappa Kappa Gamma was established at the University of Kentucky, 1910. Pan-Hellenic representatives, Louise Will, Allene Fraimah.

Chi Omega.

Lambda Alpha Chapter of Chi Omega was established at the University of Kentucky, 1914. Pan-Hellenic representatives, Catherine Tucker, Roberta Blackburn.

HONORARY FRATERNITIES.

Lamp and Cross.

Lamp and Cross is the Senior Men's Honorary Fraternity. Ten men are selected each year from the Senior class for membership, with scholastic attainment, prominence in student activities and general leadership the prerequisites for membership.

Staff and Crown.

This, the Senior Women's Honorary Fraternity, selects each year for membership those women of the Senior class who are judged highest in scholastic ability and most prominent in student activities.

The Beta Pi.

Tau Beta Pi is an honorary engineering organization open to Juniors and Seniors. The Kentucky Alpha Chapter was founded at the University in 1902.

Alpha Zeta.

Alpha Zeta is an honorary agricultural fraternity, the members of which are the Junior and Senior students in the College of Agriculture who have the highest scholastic standing. The object of the fraternity is to stimulate interest in the study of scientific agriculture, and to reward students and others who have shown themselves exceptionally proficient in scholarship.

Alpha Delta Sigma.

The honorary journalistic fraternity, Henry Watterson Chapter, was established at the University of Kentucky in 1914. Membership is limited to those showing exceptional ability in the journalistic field.

Tau Kappa Alpha.

Tau Kappa Alpha is a national honorary oratorical fraternity.

The local chapter was organized in 1913. To be eligible for membership a student must have represented the institution in some intercollegiate oratorical contest.

Myrtle Thirteen.

This is a Sophomore organization including outstanding members of the Sophomore class. Founded at the University of Kentucky in 1905.

Keys.

Keys is a Freshman organization including in its membership the most prominent Freshmen students. It was founded at the University of Kentucky in 1906.

DIRECTORY OF CAMPUS ORGANIZATIONS.

Y. M. C. A.

The Y. M. C. A. is the largest student organization in the University. Four rooms are occupied by the Association on the second floor of the Alumni Building. Mr. R. W. Owens is the general secretary for the University. In connection with its work, the Association maintains an employment bureau which assists students in securing employment.

Y. W. C. A.

Every woman entering the University is invited and urged to identify herself with the Y. W. C. A. for this organization is one of the important features of every woman's university life. A cabinet of seven members, assisted by an Advisory Board, consisting of the Dean and six other women from Lexington, have charge of the Association work.

Union Literary Society.

This, the oldest literary association connected with the University was formed in 1872 and operates under a charter from the Legislature of Kentucky.

Patterson Literary Society.

This society, formed in 1887 at the suggestion of Governor Knott, named in honor of Dr. Patterson, who was then president of the University, was chartered in 1888.

Philosophical Literary Society.

This society was instituted in 1882 by young women of the University for the purpose of furthering literary interests. Meetings are held in Patterson Hall on Wednesday evenings.

Henry Clay Law Society.

This is an organization composed of law students which convenes once each week. Subjects of public interest are discussed in order to familiarize students with the civic problems which will confront them as citizens and professional men.

Agricultural Society.

The Agricultural Society is an organization composed of the students of the College of Agriculture. At its meetings which are held Monday evening in the Agricultural Building, outstanding topics of interest to agricultural students are discussed.

Senior Mechanical and Electrical Engineering Societies.

This is an organization for the Seniors in Mechanical and Electrical Engineering. Meetings are held every two weeks and lecturers of note address the society during the year.

Meriman Engineering Society.

This is an organization for Junior engineering students.

John Hays Hammond Engineering Society.

This Engineering Society is open to students of the Sophomore class.

Charles Schwab Engineering Society.

This is an Engineering Society for Freshmen.

Strollers.

The Strollers is the dramatic organization of the University. Each year the Strollers give a play in Lexington and sometimes in neighboring towns.

White Mathematics Club.

This is a society composed of instructors, graduate students and major students of the Department of Mathematics.

History Club.

The History Club is an organization composed of the instructors and students of the Department of History. It admits as members also all those interested in this field of work. It meets once a month in the rooms of the department in the Education Building.

Political Economy Club.

The Political Economy Club is composed of instructors and advanced students of the Department of History and Economics. Meetings are held monthly.

English Club.

The English Club is composed of the instructors and the students of the Department of English. Meetings are held monthly to discuss questions of interest to the department.

Biology Club.

The Biology Club is an organization composed of members of the faculty and students interested in biology and kindred sciences. Meetings are held once a month in the Science Building. During the spring excursions are made to points of interest in Central Kentucky.

Library Club.

The Library Club is composed of members of the classes in library training. Its object is to stimulate and keep alive interest in library training. Meetings are held twice a month.

Rafinesque Botanical Club.

This is an organization for students in the Botany Department, having as its object the creation of a deeper interest in the study of plants and in their relation to the general problems of human welfare.

Romance Language Club.

This club is composed of students who are taking work in Romance Languages. Meetings are held once a month.

EXCERPT FROM HANDBOOK.

There are certain facts about the University that every student should know, therefore in the hope of enabling the student just entering to attain this knowl-

Bevo
THE BEVERAGE
The all-year-round soft drink

Fellowship—in college or out of it—flourishes best with good food and wholesome drink. Ice-cold Bevo—unexcelled among beverages in purity and healthfulness—is most satisfying as a drink by itself or a relish with food that makes a happier repast.

ANHEUSER-BUSCH, ST. LOUIS

It must be
Ice Cold

edge in the readiest way possible the Kernel is printing the following excerpts from the Student's Handbook.

Daily Schedule of Hours.

First Hour—8:00—8:50.
Second hour: 8:57—9:47.
Third Hour—9:54—10:44.
Fourth Hour—10:51—11:41.
Fifth Hour—11:48—12:38.
Sixth Hour—1:40—2:30.
Seventh Hour—2:37—3:27.
Drill and Convocation are held at the fifth hour.

System of Bells.

The beginning and end of class periods will be designated by the ringing of the electric bells.

Refunds.

During the thirty days after the beginning of each semester and ten days after the opening of the summer school, refunds up to 50 per cent of all fees may be made. After these periods no refunds will be made.

The Marking System.

A. exceptionally high quality is valued at 3 points per credit.
B. good, is valued at 2 points per credit.
C. fair, is valued at 1 point per credit.
D. poor but passing is valued at 0 points per credit.
E. failure, has neither point nor credit value.

A grade "I," incomplete is given when some relatively small part of the terms work remains undone, because of sickness or other reason. In order to obtain credit on work marked "I," such work should be completed within a month after the end of the semester.

The grade N, Absent from examination may be changed by the taking of another examination within a month after the end of the semester provided that the head of the department concerned and the Registrar grant permission for the examination.

Terms Used in the Grading Systems Defined.

A credit represents one hour of recitation or lecture, or two hours of laboratory work for one semester. Drawing, shop work, physical education, military drill and other courses requiring no outside work are reckoned at three hours for one credit.

Explanation of a "Point."

A certain number of "points" are assigned to the marks as outlined under Sec. 15. The idea is to give to the credits a certain quality value as well as quantity value. Thus a student graduating with all his marks "A" would be credited with three times as many points as credits. A student whose marks were all D would be unable to graduate. The relationship between quantity and quality is indicated by "standing," next defined.

Definition of "Standing."

The "standing" of a student is defined as the ratio of his total number of points to his total number of credits.

Commencement Honors.

(1) Students are graduated "With High Distinction" who attain a standing for the course of 2% or more.

(2) Students are graduated "With Distinction" who attain a standing of 2% or more, up to 2%.

(3) Students may receive "Special Mention" in a subject who attain a standing of 2 or more and are recommended by the department concerned for especially good work.

A student in the University prior to June, 1918, to be eligible for honors, must have met the former requirements for honors for that part of his course.

Required Work Takes Precedence.

Studies in which a student has failed to make passing grades take precedence of all others in the arrangement of the course.

Delinquent Students.

Students doing unsatisfactory work are reported each week to the Registrar, who arranges and presents them to the council. Such a student is placed under the supervision of his dean and after a time if it becomes apparent that no improvement may be hoped for he is dropped from the rolls of the University.

Senior Classification Defined.

No student in the University is considered a member of the Senior class in any year, eligible to graduate in June of that year, unless, at the beginning of the collegiate year, he shall have satisfied the requirements of Senior classification in his respective college.

A student in the College of Arts and Science to be eligible for Senior classification, must have completed 96 credits with a standing of 1.

A student in the College of Engineering must have completed all the prescribed work below the Senior year with a standing of 1. In the College of Agriculture he must have completed 103 credits with a standing of 1. In the College of Law he must have completed 52 credits in one other college with a standing of 1.

A student in any college, to be classified as a Junior must have within 6 credits of the normal amount of work, and a standing of 1; to be classified as a Sophomore he must have within 10 credits of the normal amount.

Barred From Examination.

A student who has been absent from the class room one-third of the time is barred from examinations. (Students entering late are included in this rule.)

Leave of Absence.

Students desiring to be absent from the University during term time are required to have written permission from their deans before going. These cards are to be shown to their instructors upon their return to classes.

Absence Before and After Holidays.

Absence from classes immediately preceding and following a holiday or examination period is reported at once to the Registrar. Students absent at these times must present their excuses in writing to the Discipline Committee immediately upon return to the University. If the excuse is not satisfactory to the committee, one-half credit will be

deducted for each day, or fraction of a day, of absence.

Hazing.

Hazing in any form is a violation of University discipline and is prohibited.

Smoking.

Smoking is forbidden in any of the recreation rooms, Y. M. C. A. rooms, Armory, Gymnasium, drawing rooms, hallways, doorways or laboratories of the University.

Required Attendance.

Members of the Cadet Battalion assemble in military formation and attend convocation on Tuesdays. All other members of the Freshmen and Sophomore classes, men and women, are also required to attend the convocation exercises.

Irregular Attendance.

If a student becomes irregular in attendance the Registrar may suspend him from all classes until he has made satisfactory explanation to the Discipline Committee.

Athletic Trips.

No student will be allowed to be absent from the University for more than six (6) school days (counting Saturday as a half day) during any one semester on account of athletic trips.

Participation in Public Activities.

Students on probation will not be allowed to take part in any public activity.

Absence for One Week.

A student who is absent from a subject for one week is considered to have dropped the subject and is automatically suspended.

Irregular Attendance.

If a student becomes irregular in attendance, the Registrar may suspend him from all classes until he has made satisfactory explanation to his dean.

The Band.

The University Band is made up largely of students from the Battalion, but membership is open to all who are qualified. Students assigned to the band by the Commandant may use such service for credits in Military Science.

Use of Library.

The general library is open as follows: Week-days (legal holidays excepted) 8 a. m. to 9:30 p. m.

Sundays during the regular session 2 to 3:30 p. m.

Vacation periods 9 to 12 a. m. daily.

The Experiment Station Library is open from 8 a. m. to 5 p. m. daily except Saturday, when the hours are from 8 a. m. to 1 p. m.

Use of Books.

Books may be taken out by all officers and students of the University, by teachers in the public schools of the State, and by others having special permission.

Students may borrow from the general shelves not more than two books at one time, for a period of two weeks, with privilege of renewal for two weeks longer, provided the books have not been in demand. Any book is subject to recall at any time.

Books designated by instructors as required readings are "reserved" at the loan desk, where they may be obtained by mentioning the author and title and signing a special card. Reserved books may be withdrawn after 9 p. m. to be returned by 9 a. m. next day.

Rules Governing Social Activities.

A calendar showing time and place of all dances and entertainments is kept in the office of the Dean of Women.

No social organization, except as stated below, may give more than one entertainment or dance during the year.

All such events must be properly chaperoned, the chaperons to be selected from an approved list kept in the office of the Dean of Women. Not later than one week prior to the affair, the names of the chaperons

must be given in writing in the Dean of Women. (This applies to all organizations, including women giving out of town entertainments). After the dance or entertainment the chairman of the committee must present to the Dean of Women a written report of the same.

Beside the chaperons, at least one member of the Social Committee, or some one designated by the committee as its representative, shall attend the entertainment and remain until it closes. The name of the committeeman, or committee representative must be printed on the program as one of the chaperons.

It is desired and urged that all entertainments given by the students shall be simple, free from ostentatious display and inexpensive; and as far as possible they shall be held in the Gymnasium or Armory. The committee in charge of the entertainment must file an expense report with the Business Agent within one week after the entertainment.

Attendance at dances must be limited to present and former students of the University. Special guests, however, may be invited with the approval of the Social Committee.

(4) The character and the arrangement for social functions must be approved by the Social Committee before an organization makes preparation for the same.

Eligibility requirements for participation by any student in intercollegiate athletic contests are as follows:

(1) Presentation of not less than fourteen (14) Carnegie entrance units.
(2) Matriculation in person within thirty (30) days (ten (10) days shall be the limit for football men) after the beginning of the regular university year (not counting the days set apart for the matriculation and classification of students.)

(3) Pursuit of a course involving at least (30) days (ten (10) days shall be the limit counting two hours of laboratory or practical instruction as equivalent to one hour classification of students.)

(4) Pursuit of a course involving at least ten (10) hours of lectures and recitations, counting two hours of laboratory or practical instruction as equivalent to one hour of lecture or recitation, during at least two-thirds of the preceding University year in the case of football men who took part in any intercollegiate football contest at the University that year.

(5) Freedom from probation for any cause (see sections for causes for placing students on probation.)

(6) Eligibility in accordance with all rules of the Southern Intercollegiate Athletic Association.

Permission for a New Organization.

No society or association may be organized among the students of the University without the permission of the Council, and no change in the character of the regulations of such society or association may be made without such permission.

Use of Chapel and Other Rooms for Evening Meetings.

Persons desiring to use the chapel must secure a permit from the Dean of Men and file it in the office of the Superintendent of Buildings and Grounds before 4 o'clock of the day of the meeting.

Arrangements for evening meetings in other locked buildings must be made in the office of the Superintendent of Buildings and Grounds before 4 o'clock of the day of the meeting.

Use of Bulletin Boards.

All notices and advertisements on the campus must be approved by the Dean of Men.

The Cafeteria.

The University conducts a cafeteria in the Administration Building where meals and lunches will be served at the lowest possible cost.

Notices to Report to Offices.

Students will receive notices from time to time to call at the offices of the University. Any such notice should be given prompt attention.

REPUBLICAN CLUB TO ATTEND MASS MEETING

At a called meeting of the University Republican Club yesterday evening in Chapel plans were made for the club to attend in a body the Republican mass meeting at Woodland Park Saturday evening. Bob Raible, a Junior in the College of Arts and Sciences, was made cheer leader and special yells were practiced for the occasion.

Seats will be reserved at the Auditorium for a hundred members of the club who will meet at Patterson Hall at 7:15 p. m. and go to the meeting in a body. Every student in school who professes the Republican principles of partisanship is urged to meet with the club at that time.

TRACK MEN TO REPORT FOR TRAINING AT ONCE

Coach Buchheit Announces Fall Handicap to Be Held in Six Weeks.

Attention, Track Men! Assistant Coach Buchheit asks all men who are eligible to participate in the University track work to report immediately for instruction. A number of candidates have already reported and have been issued track suits.

Preliminary work began on Stoll Field track Tuesday. Coach Buchheit is well pleased with the candidates to report early so that they may have advantage of all the training possible and that he may get a line on the material at his command.

Men who took part in high school track work last year are urged to lose no time in meeting the coach and securing a track suit. Men who are in training for the football season need not report for track until the football season is over.

PATTERSON HALL SCENE OF IMPORTANT CHANGES

Increased Registration Necessitates Opening of New Dormitory

Is this Patterson Hall will be on the lips of both eager Freshmen and sophisticated upper classmen, so great has been the transformation. For last year as soon as the last trunk had been trundled away and the last girl bid a tearful good-bye Patterson Hall became the scene of busy remodeling.

In addition to exterior and interior painting, the Hall has undergone many changes. The old Rec Hall, which formerly was situated on the second floor, the scene of dances and gay social events, has been turned into a dining room accommodating 185 cots. Dumb waiters connect it with the kitchen and the four annex rooms, which formerly composed the hospital ward, are used as serving rooms. The kitchen also has had its share of improvements. No longer now can a hungry Pat Hallite be warned of the soup in store for her as she enters the door on a cold winter day—for a hood to prevent fumes penetrating the house has been placed over the range and an electric dishwasher has also been installed.

The old dining room on the first floor has become the Rec Hall with new hardwood floors and freshly painted walls and ceiling. At the windows are attractive cretonne draperies, with a similar pattern used for cushions for the mission chairs. There are to be four cozy corners where charming cots may entertain their best beaux on week-end nights. On week nights the Hall will be used for study purposes as well as for dancing and as a rendezvous for "lit" societies and Y. W. meetings, etc.

Three "Pullmans" have been built on the second and third floors and Miss Berkley, to make more rooms, has moved her office to the right-hand parlor. The old office on the second floor will be used as a three-girl room. Several telephone booths have also been planned for the Hall.

Maxwell Hall will be in charge of Mrs. Brown, who will also act as assistant dietitian to Miss Margaret Stevens. In addition to Patterson and Maxwell Halls, a building on Upper street, between High and Maxwell streets, has been rented and will furnish lodging quarters for eighteen girls. All girls will be served at Patterson Hall, however.

McVEY TO SPEAK AT JOINT "Y" MEETING.

President will speak at a joint meeting of the Y. M. C. A. and Y. W. C. A. next Sunday evening at 6:45 in the recreation hall of Patterson Hall. All students and faculty members are invited to be present. The meetings will be dismissed about 7:30.

Why Not Trade Here

—BECAUSE—

The selection of suitable drug store goods is better here than usual for the very simple reason that not only do we stock practically anything and everything that any drug store anywhere could offer you, but we arrange and display them in such a way as to make selection easy, rapid and satisfactory. The quality of everything we sell is high-grade. True, there are medium priced and low-priced goods, but value for value, price for price, there are better offerings here than elsewhere. When the question of drugs is considered there is but one quality and that is the highest that science can produce.

"Thata Boy"

Bet your sweet life we're glad the boys are back again. And we're going to treat the fellows in the same good old way. The boys know who we are all right. We've always been "dutch uncles" to every university and college lad.

Our Special Sodas and Sundaes

We sure do know what the boys like in sodas and sundaes. That's why our shop is known as "Students' Headquarters." Everything we serve is fresh and pure—that's the secret of our success.

MISS SIMRALL SPEAKS AT Y. W. C. A. MEETING

New Dean of Women Discusses Two Great Opportunities of College Life

Elaborate Musical Program

The opening meeting of the Young Women's Christian Association was held in the Recreation Hall of Patterson Hall Sunday evening at 6:45. Miss Mary Josephine Simrall was the speaker.

Professor Lampert and Miss Jeanette Lampert, accompanied by Mrs. Lampert, rendered a violin duet, "An Angel's Serenade," by Braga, and Miss Lila D. Smith, of Lexington, who is to leave for New York within a few weeks to study for Grand Opera, sang "Oh Lord Be Merciful." She was accompanied by Miss Louise Will.

Miss Will, president of the Y. W. C. A., led the meeting, and Miss Josephine Simrall, the new Dean of Women, who made a talk on, "How New Girls Can Adjust Themselves to College Life."

After making a few announcements concerning campus affairs and saying that she hoped the girls would regard her as one of their best friends and would come to her with their problems whether they were of an administrative or personal nature, Miss Simrall said that college offered to students two great opportunities, the opportunity for honest, faithful work and the opportunity for friendship. Without these two, "Life is incomplete."

"In these four years," said Miss Simrall, "great opportunities that will never come again will knock at your door. You must not turn them away unheeded."

"The fundamental aim in college is to gain an education, which means gaining a development physically, mentally and spiritually. And primary in education is work—not shoddy, careless short-measured work but work that is well done. Failure in college comes because the Freshman does not get the right perspective and therefore does not begin to work right."

"The world today," continued Miss Simrall, "is facing terrific problems and is looking to the college women to solve them. College offers many other opportunities, the opportunity for self-development, the opportunity for service and for self-expression, all of which I will speak of some other time but the other great opportunity of which I wish to speak tonight is the opportunity for Friendship."

"Never in your life will there be a time when you will find such an opportunity for friendship as here in college. Making friendships, involves a great responsibility as it cannot be entered into lightly. Friendship does not consist of mere fascination but means trying to be and do our best because of the belief of friend—and it means service gladly and faithfully given. You can and should be cordial and friendly to everyone but go slow in forming intimate friends."

Miss Simrall said that Life would not be worth while without struggles, disappointments and failures. She spoke to the Freshmen of the discouragement and homesickness that would come to them but told them to hold fast to their courage, to keep busy, to help others and to try to be a part of the glad, joyous University Life.

NEW BOOK STORE IN BASEMENT OF MAIN BUILDING

Among the improvements to the University is the new book store which has been opened in the basement of the Main Building. It is a branch of the University Book Store on Short Street and will be under the personal direction of Frank Battalle. The store handles all of the books and school supplies needed by the students and its proximity will facilitate the procuring of the right books by the students.

The University postoffice has been moved across the hall into the book store thereby giving the postoffice larger and more commodious quarters and enabling it to give additional advantages in the way of postal service. The postoffice is again in charge of Miss Carrie Bean, postmistress.

COACH BUCHEIT HAS REMARKABLE RECORD

New Assistant Will Have Complete Charge of Track Work

George C. Bucheit, one of the best all-around athletes in the Middle West, is now identified with the coaching staff of the University of Kentucky. He is assistant coach of football and baseball and will be in charge of all track work.

The new assistant coach comes to the University with high recommendations and a remarkable athletic record, having made letters in football, basketball and track. He headed the athletic list in high school at Beardstown, Illinois, carried away track and football honors during his two years at Hillsdale College, Michigan, and was star in athletics at the University of Illinois during his last two years. He was a member of the Conference Championship Football Team and was given the position of end on Eckersall's Second All-Conference Eleven. He took high honors in Dual Meets against Notre Dame and the University of Wisconsin.

With such an athletic record the entry of Coach Bucheit into Kentucky athletics should be an inspiration to all athletes. His association with the best coaches in Illinois and Michigan, such as Coach Harry Gill, Robert Zuppke, Ralph Jones and L. C. Buchheit, his brother, equips him to dispense high class football, baseball, basketball and track "dope" to the Wildcat teams.

Coach Bucheit has a pleasant personality and is an extremely conscientious worker. He is known as a man who uses his head in athletics. With complete charge of the University track work, he is starting the season with a call for candidates for that work, which will be found elsewhere in this issue of the Kernel.

ENROLLMENT EXCEEDS LAST YEAR'S RECORD. (Continued From Page One)

Agriculture, engineering and mining are also sent to the University of Kentucky because of the excellent courses offered.

Other Veterans Will Come.

Mr. North added that several of the eight disabled soldiers who were sent to the University last year would return to complete their courses, and that others would be sent during the year.

The model practice high school at the University opened with sixty-five pupils Monday morning morning under Professor E. R. Wood, the new principal, who succeeds Prof. Fred C. Walters.

SPECIALISTS IN APPAREL FOR MEN AND BOYS

What's Going To Be Good

In Clothes

This Fall

That's about the first question asked us by young men now. Belted suits are new and we have them in snappy, all round belten, single and double-breasted models.

And then we have the close-fitting slash pocket model, made without the belt. They all have the two things you are looking for in Fall clothes, style and quality. They've just arrived from Hart, Schaffer & Mark.

Kaufman Clothing Co.

Incorporated
